SUMMIT SPEAKER BIOGRAPHY

Colin Evans
President & Chief Executive Officer, Dossia Consortium

Colin Evans is President and CEO of Dossia, a non-profit consortium setup by large US employers for the purpose of creating a national personal health data platform on behalf of their employees.

Colin is on-loan to Dossia from Intel where he recently served as the Director of Digital Health Policy and Standards. His group was responsible for creating both the Continua Health Alliance formed to create agreement on consumer health platform and device interoperability worldwide and the Dossia Consortium that brings together major US employers to develop the their shared infrastructure for personal, private, and portable health records.
